BASIS OF BEARING

Bearings are based on the "State Plane" grid bearing from CDOT Control Point 14 to CDOT Control Point 15 being S 57° 31' 10" E. Both monuments are standard CDOT 3 1/4" aluminum caps on 3/4" aluminum finned rods.

MONUMENTS

All project control monuments are standard CDOT 3 1/4" aluminum caps on 3/4" aluminum finned rods. "Poncha" is a standard U. S. Coast and Geodetic Survey brass disk set in a concrete post. K 421 is a standard U. S. Coast and Geodetic Survey stainless steel rod in a 5" logo cap.

VERTICAL CONTROL

Vertical control was established by differential leveling from K 421, a National Geodetic Survey First Order, Class II benchmark. The published orthometric height of K 421 is 2410.152 m (7907.31 ft).

COORDINATE INFORMATION

Geodetic coordinates (NAD 83 - 1992) were derived from GPS observations tied to B Order HARN station Poncha. State Plane Coordinates are Colorado Central Zone (NAD 83). Project coordinates are modified State Plane Coordinates in U. S. Survey Feet. To convert project coordinates to State Plane Coordinates, convert to meters by multiplying by 0.3048006096, add 380,000 to the northings and 850,0000 to the eastings, then multiply by the combined scale factor of 0.9996039328.

GENERAL NOTES

- This control survey is for the use of the Colorado Department of Transportation. The survey is not a complete boundary survey.
- No guarantee as to the accuracy of the information contained on the plat is either stated or implied unless this copy bears an original signature and stamp of the professional surveyor named hereon.
- According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discover such defect. In no event may any action based upon any defect in this survey be commenced more than ten years from the date of certification shown hereon.
- All coordinates listed are PROJECT COORDINATES only. Coordinates are carried out to 3 decimal places for calculation purposes and do not represent survey precision. Survey precision exceeds C.D.O.T. "B" order precision.

SURVEYOR CERTIFICATE

CONTROL SURVEY, CONTROL MONUMENTATION, ALIQUOT CORNER TIES, AND PROPERTY MONUMENT TIES WERE DONE UNDER MY SUPERVISION AND CHECKING.

JOHN M. WILLIS
