GENERAL NOTES

- NOTE: This Control Survey is not a boundary survey or right-of-way survey and is prepared for the use of the Colorado Department of Transportation and their designated Consultants.
- NOTE: It is possible that some of the survey control monuments listed are subject to movement, have been disturbed, or have been obliterated. It is the user's responsibility to verify the existence and stability of the control monuments.
- NOTE: All coordinates listed are PROJECT COORDINATES ONLY. Coordinates are determined from traverse calculations and are NOT derived from GPS observations. GPS observations were carried out to establish a relationship between the PROJECT CONTROL and NAD83 Colorado South Zone State Plane Coordinates for the purpose of positioning some aerial panel points. The transformation parameters used for that purpose are:
COMBINED SCALE FACTOR APPLIED TO ALL STATE PLANE COORDS: 1.000453898
REDUCTION APPLIED TO NORTHING AFTER SCALING: 304,943.132
REDUCTION APPLIED TO EASTING AFTER SCALING: 304,881.188
ROTATION: NONE
- NOTE: Aerial Panel Point Coordinates are carried to 3 decimal places for calculation purposes only. Actual field precision is in the order of a CDOT Type B Survey (+/- 8cm).
