BASIS OF BEARINGS

All bearings are based on the southerly line of the Southeast Quarter of Section 34, Township 4 North, Range 58 West, 6th Principal Meridian based on a grid bearing of N 89°05'56" E a distance of 2642.06 feet, monumented as shown.

South Line of the SE 1/4 of Sec. 34
S 1/4 Corner Found 3-1/4" Brass Cap on 2 1/2" Metal Pipe, B.L.M.
SE Corner Found 3-1/4" Brass Cap on 2 1/2" Metal Pipe, B.L.M. 1949

Continued on next page

BASIS OF BEARINGS: Bearings used in the calculation of coordinates are based on a grid bearing of S 89°38'50" E from Densification Point "G 418" (flanged encased stainless steel deep rod stamped "G 418 1984") Section 36, Township 4 North, Range 58 West, Sixth P.M. and the HARN Point "BRUSH 2" (Horizontal Control Disk set in top of concrete monument stamped "BRUSH 2 1979") Section 1, Township 3 North, Range 56 West, Sixth P.M. as obtained from a Global Positioning System (GPS) survey based on the Colorado High Accuracy Reference Network (CHARN).

BASIS OF ELEVATIONS: Project is based on a NAVD 88 elevation of 1,316.837m on Bench Mark "G 418", an NGS stainless steel deep rod stamped "G 418 1984". All other Control Point elevations on this project were derived from GPS observations.

COORDINATE DATUM: Project Coordinates are modified Colorado State Plane North Zone NAD 83(92) coordinates. State Plane Coordinates were modified to mean project elevation of 1302.835m. The combined elevation/scale factor used to modify the coordinates was 0.99975245818. Project Coordinates are truncated by -0- in the Northing and 900,000 in the Easting. The CHARN is based on NAD 83(92) datum.

Typical Control
Monument Cap
Not to Scale

CP - Control Point Monuments set by CDOT. They are CDOT Type 2 monuments.
a 3-1/4" dia. aluminum control monument cap (as shown) on a 3" x 3/4" dia.
finned aluminum security rod on a 3" x 3/4" dia. smooth aluminum rod.

NOTE: This control survey is for the use of the Colorado Department of Transportation personnel. The survey is not a complete Boundary Survey. Title Policy, Title Commitment, and Title Research were not part of this control survey, therefore, easements, rights, and restrictions of record are not shown. The verification of the physical evidence with relation to easements, rights of way, property boundaries, and restriction, as described in the instruments of record, were not included in this control survey.

NOTE: According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discover such defect. In no event may any action based upon any defect in this survey be commenced more than ten years from the date of the statement shown.

NOTE: No guarantee as to the accuracy of the information contained on the attached drawing is either stated or implied unless this copy bears an original signature of the professional land surveyor hereon named.

SURVEYORS STATEMENT: I, Mark D. Guerrero, a Professional Land Surveyor in the State of Colorado, hereby state that this Control Survey Diagram was prepared under my direct supervision this _____ day of _____ from a field survey performed under my supervision and checking for and on behalf of the Department of Transportation, State of Colorado, and is not a Land Survey Plat or Right-of-Way Survey Plat and to the best of my knowledge and belief this control survey, as shown, meets the minimum horizontal control tolerances of a Type B Survey and this topographic survey, as shown, meets the minimum horizontal control tolerances of a Type D Survey as listed in the Colorado Department of Transportation Survey Manual Chapter Three (Revised 4/29/92).

Mark D. Guerrero L.S. 29752

GENERAL NOTES

1. This Right of Way plan is not a complete boundary survey of all adjoining owners and is prepared for Transportation Department purposes Only.
2. Survey Control Points set with a higher degree of accuracy than ROW Markers.
3. NOTICE: According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discover such defect. In no event, may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon.
4. All R.O.W. Markers set from survey control points.
5. All centerline and offset stationing is theoretical only and may not represent the centerline as constructed in the field. All stationing is approximate.
6. All coordinates listed are project coordinates only.
7. Field survey control precision computed to exceed 1/20,000.
8. No commitments for title insurance supplied by Colorado Department of Transportation.
