Alignment and grades as shown are subject to modification during construction after approval by the Denver Office. Soil data shown on the plans is obtained from best available testing laboratory information. This information is shown for the convenience of the Contractor. The Department does not guarantee the accuracy of these tests. If materials not conforming to the data on the plans are encountered during construction, the grading plan shown on the plans will be modified where necessary to secure dense and stable embankments.

Timber Guard Posts are tabulated on Sheet No. 2
