UNION PACIFIC DEPARTMENT OF HIGHWAYS

DISTRICT NUMBER V

Narraguinnep Reservoir

12-5-1956

To W. H. Walsh

TO: Mr. C. E. Shunate

FROM: Mr. J. E. Casey

SUBJECT: C 32-0147-03, Narraguinnep Reservoir

Enclosed herewith is Supplemental Agreement No. 15397 made out to Morrison-Knudsen Co. of Salt Lake City, Utah, Contractor for the construction of the Narraguinnep Reservoir over which Highway #147 passes. This Reservoir is located 1.5 miles East of the junction of SH #147 and SH #10 in Montezuma County.

In order to have a highway over the dam structure, quantities are required for its widening from the normal 20 foot crest to a 32 foot crest, which is a Department responsibility. Also an approach to the dam structure is required on the West side of the dam involving 12,700 cu.yds. of Embankment.

The enclosed Agreement covers all work involved in widening the dam and providing the West Approach.

Upon completion of the dam, it may become necessary to make a drastic re-location change on the East Approach, which at this time cannot be determined until the quantities in this vicinity have been removed. An estimated cost for this change is \$10,000.00.

The final placing of Ballast, Surfacing and new Oil Mat for 6,000 ft. of road will require an additional \$25,000.00. Therefore, for final completion of the 6,000 ft. of Highway it appears that we must have an additional amount of \$4,387.04, the amount short of funds by Agreement, plus \$35,000 to relocate and build East Approach, or \$39,387.04.

The above costs may be cut by 30% if oiling and Ballast are placed by our own forces.

Supplemental Agreement 15397, Project C 31-0147-03, Relocation
of S. H. 147 over Harraguaney Reservoir Dam

This office has today approved the Supplemental Agreement
#15397 as submitted by you between this Department and the
Morrison-Johnson Construction Company of Salt Lake City, Utah,
Contractor.

This work is for the purpose of relocating that portion
of S. H. 147 which will pass over the new Harraguaney Reservoir
Dam.

Additional funds will be requested from the Commission to
take care of the estimated \$4,397.04 covered by this Agreement.

As this work progresses, it is requested that you advise
this office as to the final figures on the ballast and surfac-
ing, at which time a determination will be made as to how this
work will be handled.

SUBJECT: Completion Bond

In reply to your Memo. of 12-20-56, stating that the Work Order on Project C 32-0147-03, Narraguinnep Reservoir, had been approved with the exception of the completion bond:

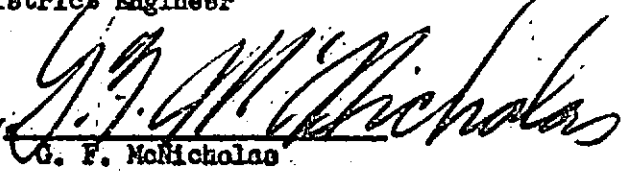

The Secretary of the Montezuma Valley Irrigation Co. was contacted and he stated that Morrison-Knudsen Co. had furnished them with a completion bond. Therefore so much of the quantities of the Work Order down to the sub-total of \$31,221.98 are included in the Montezuma Valley Irrigation Co. and the Morrison-Knudsen Co. contract and are covered by this completion bond.

The balance of the Work Order, i.e. 12,700 cu.yds. Embankment @ \$0.40 equals \$5,080.00, is additional and Mr. Russell Healey, Project Superintendent for Morrison-Knudsen Co., has been verbally requested to have his Company obtain an increase of \$5,080.00 in the amount of coverage for this additional work for the Colorado Department of Highways.

We have not heard from the Bonding Company, Morrison-Knudsen Co. or Mr. Healey. When we do we will forward the information on to you.

Very truly,
